

8. VARIOUS UPGRADE KITS FROM OLD HM501/HM601 TO HM604 LOOMS.

Available upgrades depend of the existing make and model and to know what will be available for your model we will require the serial number of the loom. Obviously, availability of upgrades will also depend if there has been made any local modifications to the looms.

Some of the modifications available are:

- Convert from shuttles with slides to shuttles with wheels, including shuttle guide ring
- Convert from metal main gear to thermoplastic main gear

Please send us serial number of your loom for information about available upgrades.
